

Triple O Replacement Parts

Triple O Systems, Inc. does not sell parts on the internet. Furthermore, there are no factory authorized internet sales of parts or systems.

There are several reasons why Triple O Systems takes this stance.

1. We are a personal company & prefer to deal on a more personal basis with people.
2. We encourage that the system owner develop a relationship with their water professional. That way there is someone in your area to help with problems. It also helps to build your local community and economy.
3. Triple O was established before the Internet was barely a concept to most people. Triple O Systems, Inc. was built with the close help of our dealers (your local water professional). We have & always will protect their interests because of this fact. Consequently, that is why when you call for parts, we make every effort to get you to your local dealer. They are your first line of defense against water problems.
4. We want to ensure that you get the parts you need & installed correctly. Many people have the technical ability to repair most of the Triple O system. However, there are an equal amount of people that do not know how. As a company we need to err on the side of caution & treat all as if they do not know how to repair the system properly. Also, we receive calls almost daily asking for filter replacements. We will always ask why the filter needs replacement. 8 times out of 10 we will talk the system owner out of a new filter because they do not need one.
5. We are in the business of treating water problems. We will not make a sale just to make a sale, we want to make sure what we sell you is what you need & is going to work not only to your satisfaction, but to ours as well. We only have your best interests at heart.
